

Potential View of Veterans Center

Above is an estimated look of the new Veteran Center to be located in northern Springfield near the Regional Airport. There is about 11 acres of land that will allow room for various activity areas and future additional buildings. It will be approximately 120' x 60' with about 7,500 sq ft. It will contain a meeting room that will accommodate about 60 members for a meeting with room for presenters head table, flags of different types. It will also have needed AV equipment (large screen TV, speakers, etc). There will be a place for museum displays and office/storage area for 8 to 10 groups. A concession area will allow refreshments for meeting groups and for museum guests. If anyone is interested in helping us with the final purchase of the property, please get use our "contact" page on the website at www.post125.org.
